## Foreword

### How can you ensure security and peace of mind in today's climate where crime and the fear of crime are of paramount concern to all?

By dealing with a company that has been at the forefront of cutting edge security technology for over 6 Years : a company with total commitment to CCTV and integrated security technologies.

Since 2013, Tan Spirit has dedicated itself to changing, adapting and evolving in line with emerging technologies. With higher and higher levels of expertise, technical know how and exceptional customer service, our clients have come to consider Tan Spirit as a partner and not a supplier. Excellence comes as standard in everything that we do.

The directors have over 10 years industry experience and have unrivalled enthusiasm and meticulous attention to detail. Combined with the highest levels of systems engineering, this has seen us grow to become one of the most prestigious integrated systems houses around.

Tan Spirit have the in-house ability to safely and efficiently handle major systems projects. How can 2020 Vision provide flexible and innovative bespoke systems to combat complex security and process control monitoring problems that are also cost effective? We take our in-depth knowledge of hardware, firmware and software engineering and apply old-fashioned craftsmanship to leading edge technologies.

From initial enquiry through to system design, implementation and after sales care, Tan Spirit consistently excels in the supply of efficient Turnkey solutions. Whether your requirements are CCTV, Access Control or an integrated systems approach to Security, Health and Safety or Process Control Monitoring, you can be sure that Tan Spirit will work with you to get it right.

Whatever your sphere of operation, from Town Centre to Industrial Estate, from University to School, Hospital to Clinic, Blue Chip to High Street Retail, Tan Spirit's uncompromising approach will provide you with the most reliable and cost effective answers to your security needs. The world changes; the nature of crime changes; the technology changes – Tan Spirit is the foundation on which peace of mind is built.

### Our vision

**“To protect people, places and profits brilliantly: becoming the industry leader and natural first choice electronic security integrator.”**

**Anan Dachasiriprapa**  
Managing Director

**Confident - In House Design**

Tan Spirit systems in operation. Through in-depth subject knowledge and skilful use of state-of-the-art technology Tan Spirit has risen to the premiership in creative system design.

**Unbiased - Product Evaluation**

Our independence enables us to provide the right products for your application, without commercial restraint or external influence. Every item of equipment we install or recommend has been rigorously tested to ensure it meets our exacting standards of quality, reliability and value for money.

**Effective - Project Management**

One of our greatest strengths is bringing together, controlling and co-ordinating all necessary parties and resources to implement large scale CCTV systems and Turnkey security projects.

**Efficient - Prebuild**

CCTV and integrated systems consist of a vast array of products and equipment often sourced from a diverse selection of manufacturers and suppliers, requiring very skilful amalgamation to produce a quality end result, which is often beyond the reach of most companies, but is just another area in which Tan Spirit excels.

**Professional - Installation**

Our team of comprehensively trained and experienced engineers apply a commitment to the highest levels of engineering skill and an unequalled attention to detail to ensure your system is installed to the highest standard achievable. Stringent levels of quality control ensure things go right first time.

**Rapid - Response**

If things should go wrong, you can be assured that qualified staff will respond rapidly, 24 hours a day, to rectify problems and get your system back on line with the minimum of disruption.

**Smart - Maintenance**

Recent dramatic world events have proven that regular professional maintenance of CCTV systems is essential if they are to be effective.

**Tan Spirit is a leading provider of physical security solutions for government, businesses and industry in Thailand.**

### **Flexibility in Design**

Innovation in implementation

### **Closed Circuit Television**

All aspects of IP video surveillance - Colour, mono, day, night, static and fully functional surveillance, computer control facilities, hard disk recording and cloud storage facilities.

### **Remote Site Monitoring**

Using the Nationally acclaimed Valley Watch 24hr CCTV control room, we can provide effective remote site monitoring of your CCTV using modern fast scan transmission techniques.

### **Access Control**

Audio and audio visual telephone entry systems, swipe card, proximity and hands free access, door monitoring, motorised gates, barriers and bollards.

### **PABX System**

PBX stands for Private Branch Exchange, which is a private telephone network used within a company or organization. The users of the PBX phone system can communicate internally (within their company) and externally (with the outside world), using different communication channels.

### **Integrated Systems**

Incorporating sophisticated use of CCTV, Access Control, Intruder and Fire Detection. Along with Alarm Management, hardware and software.
